PANTHERS

Back To School Plan

2022-2023

NOTE: The U.S. Department of Education requires that all school corporations that have received ESSER Grant funding to review and revise their “return to in-person” instruction plans and post on the school’s website until September 30, 2023.

- Prairie Heights Community School Corporation will open the 2022-2023 school year on August 17 at full capacity.
- We will not be offering any virtual options to our students. We believe that the best instruction for our students takes place in the classroom with our teachers.
- Guidelines for COVID-19
 - A person who tests positive will be out for the first five days of symptoms. They may return on day six as long as there is no fever and symptoms are better
 - We will not be contact tracing inside the school
 - We will not quarantine students or adults who were a close contact unless they have symptoms
- We will continue to promote frequent handwashing and offer hand sanitizer to help prevent the spread of illness

Plans are subject to change. We will continue to monitor conditions and consider recommendations from the CDC, Indiana State Department of Health, LaGrange County Health Department, and the Department of Education.
