Local School Wellness Policy: Triennial Assessment Template

Background Information

An assessment of your school wellness policy must be conducted a minimum of once every three years per United States Department of Agriculture (USDA) regulations; however, Local Educational Agencies (LEAs) may assess their policy more frequently if they wish.

Purpose

The template below is offered as a way to summarize the information gathered during your assessment. Members of a school wellness committee who are completing their triennial assessment for their school wellness policy may use this template. It contains the three required components of the triennial assessment, including 1) compliance with the wellness policy 2) how the wellness policy compares to model wellness policies 3) progress made in attaining the goals of the wellness policy.

Results

The copy of the assessment, as well as the current wellness policy, must be made available to the public. How these documents are shared publicly is the decision of the LEA. Many LEAs choose to post the results on their district website. Sponsors may use this template to organize the assessment conducted and make it available to the public.

Recordkeeping

Keep a copy of the most recent triennial assessment, along with supporting documentation on file. State agencies will assess compliance with the wellness policy requirements as a part of the General Areas of the Administrative Review every three years. Keep a copy of the results on file for at least three full school years plus the current year.

Section 2. Compliance with the Wellness Policy and Progress Towards Goals

At a minimum, school wellness policies are required to include:

- Specific goals for:
 - ☐ Nutrition promotion
 - ☐ Nutrition education
 - ☐ Physical activity
 - ☐ Other school based activities that promote student wellness.
- Standards and nutrition guidelines for all foods and beverages *sold* to students on the school campus during the school day that are consistent with federal regulations for school meal nutrition standards, and the Smart Snacks in School nutrition standards.
- Standards for all foods and beverages provided, *but not sold*, to students during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- Policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- Description of evaluation plan.

Using the tables below, indicate the language that is currently written in the school wellness policy in relation to each topic area. Next, assess and discuss whether the school is meeting the goal, partially meeting the goal, or not meeting the goal. Finally, indicate the progress made for each goal and next steps that have been identified.

Section 3. Comparison to Model School Wellness Policies

Indicate model policy language used for comparison. Model policies may be found [here](#).

- ☐ Alliance for a Healthier Generation: Model Policy
- ☐ Upgrade Sample Language
- ☒ Other (please specify): Indiana Model School Wellness Policy on Physical Activity and Nutrition

Describe how the school wellness policy compares to model wellness policies.

Our Wellness Policy is comparable to the Indiana Model School Wellness Policy in the following areas: We have a coordinated School Health Advisory Council or Committee that includes the required stakeholder groups. Like the Indiana Model policy, our policy includes several goals for Nutrition Education and Promotion, Physical Education and Activity, and other school based activities that promote student wellness. We also include School Meal Content.
